COTTOLENE
CONTAINS NO HOG FAT
USE LESS

The American people are waking up to the fact that hog lard is often indigestible, and sometimes unhealthful.

Cottolene, a pure, vegetable product, is fast replacing hog lard for frying and shortening. It makes better, more healthful food—and is more economical. **Cottolene** is economical because it goes one-third farther than butter or lard.

Cottolene is packed in airtight tins, never sold in bulk, and its purity and freshness are guaranteed.

Good intentions are sold to make good paying material but material qualities usually figure on either side of the scale.

One of the most plentiful in this section of the country, located 4 miles Southeast of Madrid 7 miles from Cottonwood and 5 miles from Campbellton. Is known as the Christmas place and has been here for a long time. Place is well improved and plenty of labor can be right price and terms.

Portly are farm 1 1/2 miles east of Dothan for \$20.00 on acre near by. All cleared and land only have this price for very short time.

The John Skupper place near Crimee place with 160 acres in cultivation and balance in timber that has not been turpentine land is, he is and productive and in good community. A C. L. R. runs through corner of place and two small ever living streams on place. Can give good bargain on this place.

Several nice farms near town and small and large farms all over the county.

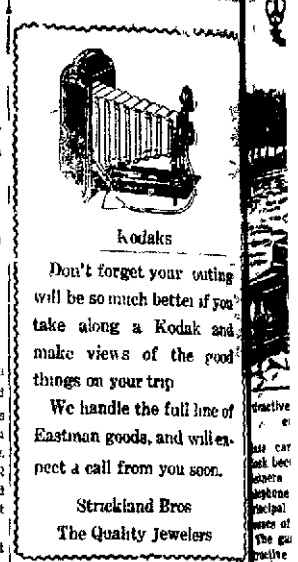

Have seen good birch in residence property. Two nice four houses on North Appleton and Adams street that I can give a bargain in several nice homes on North Oates street and some splendid lots on South Oates.

Have some beautiful lots on a very low price and easy terms.

Several nice homes on South Appleton street and some near Dothan that money can be made out of also some good business property.

The Eagle is in possession of over a dozen different names of ill-repute of Houston county who worked Dothan thoroughly, trying to find a bidder. Friday and Saturday in the election was busy day with word of the farmer but some found time to get on to foot around things. It didn't have time to go to the polls Monday after they had taken in the list of the land at political headquarters. It this list were published about 2,100 voters in Houston county would be surprised.

Such a class of voters is far more than the negro was when he was a factor in Alabama politics. Had the politicians not seen where things were leading, we would have been torn to shreds. Such a man would have to be indicted for selling the suitcase. As it is, we believe the practice has been slightly discouraged for this first primary was a muddy day. We doubt if any one candidate or the friends of any one spent ten dollars out of the of the living expenses.

Men have come to Dothan and hunted and even risked for money to do that up their but who are not legal voters. The poll tax record shows they have not and they are a poll tax. Such citizens picture should be made and distributed over the country with appropriate verities. We suggest the type for it would be a good deal to do the subject justice.

But we see signs that plainly box the votes is sliding out.

TARI'S BAD EFFECT ON TREES

The tarring of the roads has come
to be a common practice in this
country and Europe, especially in the
neighborhood of cities where the auto-
mobile traffic has been heaviest. A
few years ago the French biologist Dr.
Jullien made a study of the trees along
the roadway in the Bois de Boulogne
in Paris to find whether the treatment
given the roads had any influence upon
the vegetation. This examination
brought out the fact that the trees
that had received the dust from such
roads were much affected. Their
growth was stunted, the leaves small
shriveled up and became spotted. In
investigations made subsequently he
tried to find out whether there were
not other effects upon more deep-
lying parts and gave special atten-
tion to the cataphylls or Indian bean
as it is called in this country.

Comparing the twigs of normal trees
with those of affected trees all hav-
ing been cut off on the last of July, he
found that those on the normal trees
were considerably larger at the base.
The reduction in the affected trees is
particularly confined to the young twigs
as the bark is of the same thick-
ness on all the twigs save a writer in
Forest Weekly. The wood cells are
much smaller whereas the layers im-
mediately under the skin are develop-
ed much more. In the trees attacked by
a dust specimen gathered in the
suburban showed more important differ-
ences. In the normal trees the twigs
and the usual deposits of reserve
material whereas in the trees grow-
ing along the tared roads no such
was present.

Other trees showed parallel effects.
Thus the black locust and the one-leaf
honey locust, collected in the early
summer of the autumn showed im-
portable effects upon the twigs and
even when the trees were shrouded
with dust from the tared roads. The
only layers of the bark developed in-
regularly and the growth was less
abundant than normally. Finally ab-
normal cork formations appeared upon
the veins of the leaves of ptelegenium
and in the leaf stalks of asplenium
and hestium trees.

These effects upon the growth of the
tree and especially the inhibition of
the bark formation explain why it
is that the effects of road tarring have
not been observed soon after the ap-
plication of the tar. The infusion of

rest upon a tree is cumulative. For
two or three seasons the tree can put
out new shoots at the expense of re-
serve food of previous years, but grad-
ually the noxious tar dust brings about
the untoward symptoms. If some
blow were to be introduced as a sub-
stance for tarring it would again be
said that it did not have an undeter-
minable effect upon the vegetation of our
roads and roadides.

Preservation of City Trees

The Twentieth Century club wants
the city to spend \$25,000 a year on
caring for the shade trees in our
streets. The demand is a modest one.
We have thousands of trees worth
\$400 each or more not to speak of
the common ones of less value.
What manufacturer who had invest-
ed hundreds of thousands of dollars
in a plant would allow it to go to
wreck for lack of a few thousand dol-
lars a year for maintenance? Yet
that is what we are doing with our
trees. We spend money freely in re-
taining them out and then we let
them to the mercy of insects and
other pests. It would be better to
spend what money we can spare in
taking care of the trees we have than
to then go on getting out more. In any
case, that in a few years they will in
all probability have no more to the
municipal conditions in which they
are so by all means preserve our
trees. There is nothing which in our
trees, city more nothing, which it will
a proper annual expenditure the city's
better return—But not to mind.

We have all of us seen the little
potage with badly more around than
a potage stamp embossed in these

avoided the owner the path of gold.
As a matter of fact it requires neither
native genius nor artistic patronage.
It is work of a long, slow and
certainly a slow take such hold on
one of the patient and gentle
come is a matter of course. With
just a little taste one can let out and
plant a small garden in which a little
eye choice and be careful flowers
are so important that the whole in
a beautiful color heart. If you have
never known the early morning hour
in the garden before the month of
the day begins to fly this year. It
will open to you a new and early
vista of life.

QUESTION CLEARED UP.
Dothan Readers Can No Longer Doubt the Evidence.

Again and again we have read of strangers in distant towns who have been cured by this or that medicine. Dothan's pertinent question is always: "Has any one here been cured?" The word of the stranger living a hundred miles away may be true, but it cannot have the same weight with us as the word of our own citizens. When we know and respect, and have evidence we can so easily see.

M. H. Jones, prop. of restaurant, 10 E. Main Street, Dothan, Ala., says: "Doan's Kidney Pills did me a world of good, and I can recommend them. My kidneys were irregular in action and I had backache. The use of Doan's Kidney Pills did me great good. The pain went and my kidneys became normal."

MEANS END OF SMALL TOWN

William Allen White Sounds Warning Against the Big City Retail Mail Order Houses

A LITTLE to the contrary of it, southern life is being undermined by the big city retail mail order houses. William Allen White says.

It is a very real thing that is not only a danger to the small town but to the nation as a whole. It is the danger of the big city retail mail order houses.

ROOSEVELT STRIKES AT HIS OPPONENTS

Huntington, W. Va., April 4.—A striking severity at his political opponents here, Colonel Roosevelt charged them on a crutch tonight with using selfish methods in an effort to get a bill passed in the Senate to take place in this city. The former president said he had been informed that plans were being made to turn the convention into a last-minute outburst, and that he had been invited to give the closing address on the Roosevelt side.

Colonel Roosevelt's speech was delivered at the close of the session of his campaign in West Virginia and Kentucky. He made two points in the address. The first was that the Roosevelt side was not to be taken for granted, and the second was that the Roosevelt side was not to be taken for granted.

As Colonel Roosevelt entered this city he was met by Governor Glavin, who acted as pilot for the remainder of the day's journey and introduced him to the crowd.

Several times during the day the colonel was called from his car to make short speeches to the crowds, which had collected at the stations. At Huntington, W. Va., he first appeared on the day and one of the largest crowds Roosevelt has seen on the campaign met him.

After he had concluded his speeches tonight, Colonel Roosevelt returned to his private car to leave tonight for Huntington, W. Va. He is to speak in Martinburg, in the morning, and then will begin the journey to Chicago.

Some of the firecrackers after have present of mind enough to take note.

THREE MEMBERS OF FAMILY MEET DEATH IN FLAMES

Opelika, Ala., April 4.—Three persons met death in the flames which consumed the residence of Thomas (Tram) Milton M. Dunn, seven miles south of Selma, was destroyed by fire shortly after midnight. The day morning.

The dead are Mrs. Amanda Dunn, aged about 35 years, brother of Treasurer Dunn, Cleveland Dunn, aged 3 years, son of Mrs. Dunn, Mildred Dunn, aged 2 years, daughter of Cleveland Dunn. According to best reports the Dunn family retired shortly after 10 o'clock Wednesday night. In the half hour of half an hour the house was in flames and had burned to the ground. Mrs. Cleveland Dunn, the only other member of the family was the only one of the family to escape alive.

Treasurer Dunn was, in the morning, sent the night with his family and the news of the tragedy was brought to him by this morning.

The origin of the fire and how the fire was started is not known. The house was a two-story building. The fire was started in the kitchen. The fire was started in the kitchen. The fire was started in the kitchen.

In the fire, Mrs. Dunn was severely injured. She was taken to the hospital. She is now recovering. She is now recovering. She is now recovering.

was of incendiary origin. The bodies of the three victims of the fire will be buried in one casket at 5 p.m. Friday afternoon. County Treasurer Dunn is left with one brother, William Dunn, of Birmingham. He has many friends in this section who sympathize with him deeply in his sorrow.

YOUNG WOMAN TAKES POISON IN NEW ORLEANS

New Orleans, La., April 4.—A handsome and well-dressed young woman in a blonde who said she came here from New York where she lived at 545 Forty Fifth Street, was taken from a room here last night and carried to a hospital suffering from the effects of poison which the chauffeur saw her swallow. She said she was despondent at Angel Jones, the name of the wife of a prominent attorney. She said she was born in England. She arrived here several days ago on a mailboat.
